

Test Report (SVHC)	No.:	CANEC23009890601	Date:	Sep 20, 2023	Page 1 of 14
Client Name: G	UANGZHOU	TIANXIN PHOTOELECTRI	C CO.,LTD		
	15-1 JINGU ISTRICT,GU	I ROAD SOUTH,XIUTANG,F ANGZHOU	IUADONG <sup>-</sup>	FOWN,HUADU	
Sample Name:	C	eramic-base LED Package f	or Automoti	ve	
The above sample	e(s) and infor	mation were provided by the	client.		
SGS Job No.:	G	ZP23-013561			
Sample Receiving	Date: S	ep 13, 2023			
Testing Period:	S	ep 13, 2023 ~ Sep 20, 2023			
Test Requested:	( S R ( o	s requested by client, SVHC i) Two hundred and thirty-five ubstances of Very High Con uropean Chemicals Agency egulation (EC) No 1907/200 ii) Five (5) substances in the f Very High Concern (SVHC) ECHA) on and before Sep 1,	e (235) subs cern (SVHC (ECHA) on 6 concernin Public Cons ) published b	tances in the Cance ) for authorization ( and before Jun 14, g the REACH. sultation List of pot by European Chem	didate List of published by 2023 regarding ential Substances

Unless otherwise acreed in writing, this document is issued by the Company subject to its General Conditions of Service printed overleaf

Signed for and on behalf of SGS-CSTC Standards Technical Services Co., Ltd. Guangzhou Branch

Arsene Ye Approved Signatory

No.: CANEC23009890601

Date: Sep 20, 2023

#### **Remark :**

1. The chemical analysis of specified SVHC is performed by means of currently available analytical techniques against the following SVHC related documents published by ECHA: http://echa.europa.eu/web/guest/candidate-list-table

These lists are under evaluation by ECHA and may subject to change in the future.

2. REACH obligation:

2.1 Concerning article(s):

Communication:

Article 33 of Regulation (EC) No 1907/2006 requires supplier of an article containing a substance meeting the criteria in Article 57 and identified in accordance with Article 59(1) in a concentration above 0.1% weight by weight (w/w) shall provide the recipient of the article with sufficient information, available to the supplier, to allow safe use of the article including, as a minimum, the name of that substance in the Candidate List.

#### Notification:

In accordance with Regulation (EC) No 1907/2006, any EU producer or importer of articles shall notify ECHA, in accordance with paragraph 4 of Article 7, if a substance meets the criteria in Article 57 and is identified in accordance with Article 59(1) of the Regulation, if (a) the substance in the Candidate List is present in those articles in quantities totaling over one tonne per producer or importer per year; and (b) the substance in the Candidate List is present in those articles above a concentration of 0.1% weight by weight (w/w).

Companies supplying articles containing substances of very high concern (SVHCs) on the Candidate List in a concentration above 0.1% weight by weight (w/w) on the EU market must comply with the Waste Framework Directive 2008/98/EC requirement and submit SCIP notifications on these articles to ECHA, as from 5 January 2021.

#### 2.2 Concerning material(s):

Test results in this report are based on the tested sample. This report refers to testing result of tested sample submitted as homogenous material(s). In case such material is being used to compose an article, the results indicated in this report may not represent SVHC concentration in such article. If this report refers to testing result of composite material group by equal weight proportion, the material in each composite test group may come from more than one article.

If the sample is a substance or mixture, and it directly exports to EU, client has the obligation to comply with the supply chain communication obligation under Article 31 of Regulation (EC) No. 1907/2006 and the conditions of Authorization of substance of very high concern included in the Annex XIV of the Regulation (EC) No. 1907/2006.

#### 2.3 Concerning substance and preparation:

If a SVHC is found over 0.1% (w/w) and/or the specific concentration limit which is set in Regulation (EC) No 1272/2008 and its amendments, client is suggested to prepare a Safety Data Sheet (SDS) against the SVHC to comply with the supply chain communication obligation

nless otherwise acreed in writing, this document is issued by the Company subject to its General Conditions of Service printed overlea

#### **No.:** CANEC23009890601

**Date:** Sep 20, 2023

(a) a substance posing human health or environmental hazards in an individual concentration of 1 % by weight for mixtures that are solid or liquids (i.e., non-gaseous mixtures) or 0.2 % by volume for gaseous mixtures; or

(b) a substance that is PBT, or vPvB in an individual concentration of 0.1 % by weight for mixtures that are solid or liquids (i.e., non-gaseous mixtures); or

(c) a substance on the SVHC candidate list (for reasons other than those listed above), in an individual concentration of 0.1 % by weight for non-gaseous mixtures; or

- (d) a substance for which there are Europe-wide workplace exposure limits
- 3. If a SVHC is found over the reporting limit, client is suggested to identify the composite component which contains the SVHC and the exact concentration of the SVHC by requesting further quantitative analysis from the laboratory.

#### **Test Sample:**

#### **Testing Group:**

Test Result ID	Description	Test Part ID	SGS Sample ID
001	Multicolor body	A1	CAN23-0098906- 0001.C001

#### **Test Method:**

With reference to SGS In-House method, analysis was performed by ICP-OES, UV-VIS, GC-MS, HPLC-DAD/MS and Colorimetric Method.

as otherwise agreed in writing, this document is issued by the Company subject to its General Conditions of Service printed overlea
